## QUESTION 1

The identity context is opaque to your web service client and web service and you don't need to perform any additional coding or processing in your client or service to support it after you enable identity context propagation.

Which Oracle SOA Suite component directly enables this behavior?

- A. Oracle Web Service Manager Policy Manager
- B. Oracle BPEL Process Manager
- C. Oracle Enterprise Manager
- D. Oracle User Messaging Service

Correct Answer: D

---

## QUESTION 2

You have developed a BPEL process with a Switch activity using the BPEL 1.1 specification. As part of the upgrade to SOA 12c, you are redesigning the BPEL process to use the BPEL 2.0 specification. Identify the right approach.

- A. Replace the Switch activity with a While activity.
- B. Replace the Switch activity with an If activity.
- C. Replace the Switch activity with a Repeat Until activity.
- D. Replace the Switch activity with a For Each activity.

Correct Answer: B

---

## QUESTION 3

You have modeled a Composite X for which the following fault policy action has been configured for

remote faults:

2

2

At runtime, when a remote fault occurs on an outbound invoke, this ora-retry action is triggered. After the two configured retries are exhausted, which one occurs?

- A. The transaction of Composite X rolls back.
- B. The instance is marked "open.faulted" and is available for auto-recovery.
- C. The instance is marked "closed.faulted" and is available for error recovery from Enterprise Manager where the user can choose actions on the instance such as replay, rethrow, and abort.
- D. The default retryFailureAction is initiated and it rethrows the error back to the caller service.

Correct Answer: B

---

#### QUESTION 4

Your company has a checkCredit service used in the sales process and your organization plans to roll out a new sales mobile application.

Identify two approaches that you can use to develop the new mobile application.

- A. Develop a template for the checkCredit service.
- B. Expose the checkCredit service with a REST interface.
- C. Create a BPEL subprocess for the mobile application request.
- D. Use JSON for payload.

Correct Answer: C

---

#### QUESTION 5

Which statement is true about how BPEL Process Manager handles the For Each activity?

- A. The counter variable of the For Each activity is global, so any change to it in the enclosed scope activity is retained and that change can impact the next iteration.
- B. The For Each activity executes a contained scope activity N times, where N is the final counter value minus the starting counter value.
- C. The For Each activity waits for the execution to finish for all the branches specified when the completion condition is specified and evaluated to true.
- D. The counter variable of a For Each activity is local to the enclosed scope activity, so a change to it outside the scope of the For Each, does not impact the next iteration.

Correct Answer: B
