QUESTION 1

Which is a role of an SOA governance body?

- A. Evaluating performance, availability and scalability of services
- B. Defining the processes, procedures, mechanisms and organizations that guide the implementation of services
- C. Performing critical evaluation and selection of the packages, software and hardware components of the architecture
- D. Identifying services from a decomposition of business processes and ensuring that these services enable realization of the business goals and drivers

Correct Answer: B

QUESTION 2

What most accurately describes a business process?

- A. The steps required to complete a unit of work in the optimal way
- B. An artifact used to capture the knowledge representing business requirements
- C. A flow of tasks that must be completed by systems or people in a certain order
- D. BPEL code that runs within a business process engine orchestrating the work of people and systems

Correct Answer: C

QUESTION 3

How does the SOA governance body ensure that services are not redundant within the organization?

- A. It must manage service distribution and rights management.
- B. It must enforce communication between stakeholders and subject matter experts.
- C. It must enforce coordination between service providers across the organization.
- D. It must coordinate communication of business requirements to development organizations during the planning phase.

Correct Answer: C

QUESTION 4

Which basic characteristics of SOA can contribute to business agility?

- A. Reuse and security
- B. Loose coupling and reuse
- C. Governance and integration
- D. Point-to-point integration and extensibility

Correct Answer: B

QUESTION 5

A company has implemented a number of business processes using SOA services.

How do they determine if their new processes are helping the organization to achieve its business objectives?

- A. They establish a Center of Excellence (CoE) to monitor and report on the SOA services performance.
- B. They contact a third party to analyze and evaluate the new processes against the business objectives.
- C. They set and monitor Key Performance Indicators (KPIs) to track performance against the business objectives.
- D. They model the new processes in a business model simulator to identify bottlenecks and potential performance issues.

Correct Answer: C
