Correct Answer: AB

QUESTION 5

You're designing the eDirectory tree for your company. Your company is composed of four distinct subsidiary organizations. You decide to create four Organization objects at the root of your tree to represent each. Each subsidiary has its own Vice President who is in charge of the organization. You decide to create a user object for each Vice President in their respective Organization object. Will this design work?

- A. Yes, all eDirectory rules have been observed.
- B. No, user objects can't reside within an Organization object.
- C. No, Organization objects can only reside within Country objects.
- D. No, there can only be one Organization object within a given tree.

E. No, Organization objects should not be used to represent subsidiaries. Organizational Unit objects should be used instead.

Correct Answer: A
