D. Disable Single Sign On

Correct Answer: A

---

### QUESTION 5

Your organization's disaster recovery plan needs an update to the backup and restore section to reap the new distributed R77 installation benefits. Your plan must meet the following required and desired objectives:

Required Objective. The Security Policy repository must be backed up no less frequently than every 24 hours.

Desired Objective. The R77 components that enforce the Security Policies should be backed up at least once a week.

Desired Objective. Back up R77 logs at least once a week.

Your disaster recovery plan is as follows:

-Use the cron utility to run the command `upgrade_export` each night on the Security Management Servers.

-

Configure the organization's routine back up software to back up the files created by the command `upgrade_export`.

-

Configure the GAIa back up utility to back up the Security Gateways every Saturday night.

-Use the cron utility to run the command `upgrade_export` each Saturday night on the log servers.

-

Configure an automatic, nightly logswitch.

-

Configure the organization's routine back up software to back up the switched logs every night. Upon evaluation, your plan:

A.

Meets the required objective and only one desired objective.

B.

Meets the required objective but does not meet either desired objective.

C.

Does not meet the required objective.

D.

Meets the required objective and both desired objectives.

Correct Answer: D
