QUESTION 1

Consider the following HTML5 code:

```
<!DOCTYPE html>
<html lang="en">
<head>
     <title>My Favorite Movie Quotes</title>
     <link rel="stylesheet" href="css/styles.css"/>
</head>
<body>
<p> This Web site is devoted to my favorite movie quotes. These ic
been used time and again but will never lose their appeal. </p>
<p> CAPTAIN (Strother Martin) in Cool Hand Luke (1967)
<blockquote> "What we've got here...is a failure to communicate."
</p>
</body>
</html>
```

The code does not validate as HTML5. Why?

A. The tag is missing.

B. The tag and its attributes are missing.

C. The

 tag should be used outside the

 tags.

D. The !DQCTYPE declaration is missing a reference to the Document Type Definition (DTD).

Correct Answer: C

QUESTION 2

Carlos is the Information Technology (iT) administrator for a small company. Over the past year, employees have been using their personal mobile devices and smart phones for business use. This has reduced costs of purchasing new devices for employees. Carlos is now considering whether he should stop supplying employees with company phones and instead require all employees to use their personal smart phones for work. How can Carlos address the most significant security vu inerrability?

A. Develop a robust app to push security updates out to the various mobile OS devices

B. Create an employee policy that requires employees to keep phones updated to the latest technology

C. Create a policy that specifies acceptable use, ensuring security measures are in place for mobile devices

D. Mandate that employees switch to the company\\'s mobile service provider to ensure security policies are

enforced

Correct Answer: C

QUESTION 3

You accidentally dropped your mobile phone, which was submerged in water and no longer works. Upon replacing the phone with an upgraded unit you must reconfigure many of the services. The instructions say that all you need to do is enter your e-mail address and the unit will configure the e- mail client for you. Even though you have tried this several times, it does not work. The mobile phone vendor says that because you are trying to sync your e-mail account with an enterprise mail server, you will need to configure the e-mail client manually. Which choice lists the information you will need to configure the e-mail client?

A. Company name, e-mail address, SMTP, POP3, IMAP and DNS

B. E-mail address, SMTP, IMAP, DNS, user name and password

C. E-mail address, SMTP, POP3, user name and password

D. Company name, SMTP, POP3, user name and password

Correct Answer: C

QUESTION 4

Gwen works for a small company where she has been asked to find a cost-effective option for providing comprehensive customer service. The finance, technical support, sales and customer service departments all need to share information about their customers. Gwen is considering adoption of a customer relationship management (CRM) application. Which of the following would be the most cost- effective solution?

A. She can purchase a new server, then create and maintain the CRM in-house.

B. She can outsource all customer service so the company can focus on product development.

C. She can contract with a cloud service provider to host the CRM that her company\\'s employees can access.

D. She can hire a programmer to develop and maintain the CRM specific to her company\\'s needs,then have a service provider host the application.

Correct Answer: C

QUESTION 5
