QUESTION 1

A furniture retailer wants its online buyers to first choose their underlying need, which will then direct them to the related list of accessories and product parts of the configurable furniture product. The retailer intends to do this by presenting

standard questions to the online buyers on their needs, and then presenting the related list of accessories and parts through dynamic user interfaces.

What step is required to enable this feature?

A. Add a supplemental structure to the root node of the item-based model in Fusion Product Hub, and then import it into the Configurator.

B. Add a supplemental structure to the option classes of the item-based model in the workspace area of the Configurator.

C. Add a supplemental structure to the root node of the item-based model in the workspace area of the Configurator.

D. Add a supplemental structure at the option class level for each model product in Fusion Product Hub, and then import it into the Configurator.

Correct Answer: B

QUESTION 2

You want to decrease the implementation time for Order Management by using the Quick Start feature. Select the accurate list of four areas that you can configure by using the Quick Start feature.

A. Objects in receiving, objects in advanced fulfillment, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order

B. Default general shipping parameters, objects in order management parameters, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order

C. Default general shipping parameters, objects in order management parameters, objects in advanced fulfillment, and orchestration process for shipping and returning an order

D. Objects in advanced fulfillment, default pick release attributes for the shipping parameters of inventory facilities, objects in receiving, objects in order management parameters

E. Default general shipping parameters, objects in receiving, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order

Correct Answer: D

QUESTION 3

Which change mode takes a snapshot at the stages mentioned below: -When the orchestration process starts -When a change order is received at an orchestration process step

A. Advanced

B. Incremental

C. None

D. Simple

Correct Answer: A

QUESTION 4

Which three statements are true about the Extensible Flexfields setup for order capture integration? (Choose three.)

A. If the attribute information will be provided during the import process, the values should be provided in the import web service payload structure.

B. The Extensible Flexfield implementation requires customers to manually map incoming Extensible Flexfield data to all Order Management entities.

C. The XLST "Copy-of" feature dynamically maps the input Extensible Flexfields to the Order Management entities and the Extensible Flexfield Order Management entity to the SDO/custom node for all Task Layers.

D. If the extensible attributes need to be passed to or received from downstream applications, the values must be passed in the payload structure.

E. The XLST "Copy-of" feature dynamically maps the input Extensible Flexfields to the Order Management entities and the Extensible Flexfield Order Management entity to the SDO/custom node only for the Decomposition (Sales Order Integration), Template Task Layer, and Fulfillment Task Layer.

Correct Answer: ABC

QUESTION 5

Your customer wants to include externally managed manufacturing supplies in Global Order Promising results. What are the four steps that you perform to meet this requirement? (Choose four.)

A. Ensure that the organizations in your external systems are modeled in Oracle SCM Cloud as item organizations.

B. Enable each external system as a collection source by using the Manage Planning Source Systems page.

C. In the Planning Central work area, select the Collect Planning Data task to complete the process of uploading your data.

D. Load all of the data you require from your external system by using standard file uploads.

E. In the Planning Central work area, select the "Load Planning Data from Flat Files" task to complete the process of uploading your data.

Correct Answer: ABDE
