### QUESTION 1

Your customer requires changes be made to the Order Management work areas. The customer would like to rearrange the tab layout and hide attributes. Which statement is true about this requirement and customizations that an administrator will be able to make?

- A. An administrator can only hide attributes and cannot rearrange the tab layout.
- B. An administrator can rearrange the tab layout, hide attributes, and add custom components such as links.
- C. An administrator cannot customize anything within the Order Management work areas.
- D. An administrator can rearrange the tab layout, hide attributes, and change default widths of columns and panels.
- E. An administrator can only add content and rearrange the tab layout. They cannot hide attributes.

Correct Answer: B

---

### QUESTION 2

Your company has two business units: BU1 and BU2. Each has a warehouse associated with it: W1 and W2, respectively. W1 has transferred the required material to W2 along with an intercompany invoice. On receiving the material, W2

finds that the material has a defect, and decides to scrap it in its warehouse, which is more cost-effective than sending it back to W1. But BU2 wants a credit from BU1 against the invoice amount that is already paid to BU1 because the material was defective and not consumed.

What action would you need to take to address this business requirement?

- A. Perform a spreadsheet upload of the transfer order of type Accounting only Return from W2 to W1.
- B. Create an accounting rule in the Create Documentation and Accounting Rule user interface under Financial Orchestration.
- C. Perform Accounting only Return against the transfer order by using the Manage Returns user interface.
- D. Deselect the check box "Physical Material Return Required" in the Create Financial Orchestration Flow user interface under Financial Orchestration.

Correct Answer: D

---

### QUESTION 3

Your customer wants to use Oracle Integration Cloud Service with Order Management to communicate business events. Select the option that shows the correct order in which the steps should be executed.

- A. Manage business event trigger points, create an integration, create a connection, and track business events.
- B. You cannot use Oracle Integration Cloud service with Order Management to communicate business events.

- C. Create an integration, create a connection, and track business events.
- D. Manage business event trigger points, create a connection, create an integration, track business events.
- E. Track business events, manage business event trigger points, and create an integration.

Correct Answer: A

#### QUESTION 4

Identify the task that the seeded Warehouse Operator role can perform.

- A. Process and confirm outbound shipments
- B. Generate pick slips for picking material for outbound material movement
- C. Generate outbound shipping documentation
- D. Search for a pick slip and confirm it
- E. Monitor and release sales orders for picking in the warehouse

Correct Answer: D

---

#### QUESTION 5

Your company, which is a global major in farming equipment, has products ranging from make-to-stock fast moving items, assembled-on-demand items, and complex configurable items with manufacturing plants and distribution centers spread across the US, Europe, and China. The company is deploying Oracle Cloud Order Management, and wants to evaluate the different promising modes that are possible through Cloud Global Order Promising for its products. Which three promising modes are possible through GOP for the company's products? (Choose three.)

- A. Zone-based availability
- B. Lead times
- C. Infinite availability
- D. Global availability
- E. Supply chain availability

Correct Answer: BDE
