QUESTION 1

As part of maintaining (importing new employees that were added last week) project enterprise labor resources in your organization, you submit the Maintain Project Enterprise Labor Resources process to create and update resources based on changes in HCM. You define maintenance conditions on the Manage Project Enterprise Labor Resource page to process both employees and contingent workers.

Which three are parameters that are based on which the system identifies the new resources?

- A. Department
- B. Organization
- C. Business Unit
- D. Project Unit
- E. Jobs

Correct Answer: BCE

QUESTION 2

Your customer wants a project start date to cascade to the project tasks, but does not want the finish date to be cascade. Identify the default setup in a project template that can be used to enable this.

- A. Do not cascade date changes.
- B. Cascade change to the start date and the finish date.
- C. Cascade change to the finish date.
- D. Cascade change to the start date.

Correct Answer: A

QUESTION 3

Your administrator creates maintenance conditions on the Maintain Project Enterprise Labor Resources page. An HCM person is included in a condition with a process order value of 1 and, additionally, there are three other conditions, all with a process order value of 10.

Identify two correct statements about the Maintain Project Enterprise Labor Resources process as it relates to process order values.

- A. For the three conditions that have the same process order value of 10, the records are processed in ascending alphabetic order based on the condition name.

- B. The process creates a resource by using the condition with a process order value of 1, but does not create more than one resource for the same person even if subsequent conditions apply to the person.
- C. For the three conditions that have the same process order value of 10, the records are processed in ascending numeric order based on the condition name.
- D. The process creates a resource by using the conditions with a process order value of 10, but does not create more than one resource for the same person even if subsequent conditions apply to the person.

Correct Answer: AD

QUESTION 4

Your customer wants to calculate Estimate to Complete (ETC) as the difference between Current Planned Cost and Actual Cost. In Progress Settings, which option would you use in conjunction with the ETC method to meet this requirement?

- A. Remaining Plan
- B. Effort
- C. Manual Entry
- D. Cost

Correct Answer: D

QUESTION 5

You have defined two expenditure types but they are not available for selection when you enter an expenditure batch. Identify the reason for this problem.

- A. The two expenditure types are not assigned to the reference data set that is assigned to the project-owning organization in which the transaction is performed.
- B. The two expenditure types are not assigned to the reference data set that is assigned to the business unit in which the transaction is performed.
- C. The two expenditure types are not assigned to the reference data set that is assigned to the project unit in which the transaction is performed.
- D. The two expenditure types are not assigned to the reference data set that is assigned to the project expenditure organization in which the transaction is performed.

Correct Answer: D
