QUESTION 2

When implementing Project Performance Reporting, your customer has the following requirements:

Every time a project cost is greater than or equal to a threshold, then the project should be shown as critical.

As long as a project cost is less than the threshold, the project should be shown as on-track.

Which threshold level rule is ideal for this kind of KPI definition?

- A. single threshold level range
- B. single threshold level value
- C. multiple threshold levels
- D. multiple threshold level value

Correct Answer: B

QUESTION 3

As you go through the first-quarter close for your customer, you notice that the burden amounts calculated do not seem to be right. Based on the calculations, you notice that the amounts calculated are not considering the burden schedule override at a task level, which was done during the second month of the quarter.

Identify the reason for this problem.

- A. You can enable automatic reprocessing of expenditure items processed before the burden schedule change.
- B. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier cannot be reprocessed.

- C. All expenditure items charged to the task use the new burden schedule.
- D. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier can be manually marked for reprocessing.
