QUESTION 1

Your users receive a notification for a transaction from CPQ when an approval has been retracted and is no longer needed. The notification contains a generic message about this action. However, users would like to get more details about the transaction. What is the Oracle-recommended best practice to fulfill this requirement in CPQ?

- A. Trigger an email action to notify users by custom defining the email's subject and body, which contain the transaction details, by using the advanced function available in the Revise action.
- B. When a transaction needs to be revised, allow the transaction owner to send a parallel email to approvers, which should include the necessary transaction details.
- C. Switch the system-generated email-to-email template, which will include the desired transaction information when approvers are notified.

Correct Answer: A

QUESTION 2

To add items (parts) to a configuration, Recommended Item rules are used. Which two statements are true when using Recommended Item rules?

- A. Recommended Item rules can return only the base price of an item (part) and cannot use dynamic prices based off data tables.
- B. If multiple Recommended Item rules recommend the same item (part), the item (part) price is picked from the rule that is last in the order.
- C. If multiple Recommended Item rules return the same item (part), the quantity of the item (part) is a total of all quantities returned by each rule.
- D. Recommended Item rules can show only the base prices defined in the customer specific module.

Correct Answer: BD

QUESTION 3

Which statement is true about creating individual user groups for each partner organization, when creating partner organizations?

- A. A host company FullAccess user create groups for partner organizations; however, the superuser of a partner organization can only assign users to existing groups.
- B. The groups of a partner organization are maintained by FullAccess users belonging to the partner organization.
- C. The groups of partner organizations are created by using the Bulk Upload utility or SOAP API calls.
- D. Partner organizations use the same user groups defined for the host company.

E. Partner organizations have only users, but no user groups.

Correct Answer: A

QUESTION 4

Which two statements are true about Formulas? (Choose two.)

- A. Both attributes and library functions can be used as inputs for Formula Management.
- B. Only attributes can be used as inputs for Formula Management.
- C. Formulas can set both transaction- and line-level attributes.
- D. Formulas cannot be run in sequence to perform multi-step calculations.

Correct Answer: CD

QUESTION 5

Which is the correct procedure for adding multiple files to File Manager in a single step?

- A. Click File Manager on the Admin home page, click the Browse button next to "Browse for ZIP File", identify the zip file to upload, and click the Add/Update Files button.
- B. Click File Manager on the Admin home page, select the folder, where you want to store the new files, click the Browse button next to "Browse for ZIP File:", identify the zip file to upload, and click the Add File button.
- C. Click File Manager on the Admin home page, select the folder where you want to store the new files, click the Browse button next to "Browse for ZIP File:", identify the zip file to upload, and click the Add/Update Files button.
- D. Click File Manager on the Admin home page, select the folder, where you want to store the new files, click the Browse button next to "Browse for ZIP File:", and click the Add/Update Files button.
- E. Click File Manager on the Admin home page, select the folder, where you want to store the new files, click the Browse button next to "Browse for ZIP File:", identify the zip file to upload, and click the Add File button.

Correct Answer: C
