QUESTION 2

You are implementing the Enterprise Checklist functionality for one of your customers. The customer wants certain checklist tasks allocated to the employee automatically before their hire date.

What should you do to achieve the required functionality?

- A. Associate the area of responsibility with the checklist template to allocate the checklist to persons automatically when they are given the specific area of responsibility.
- B. The worker must be added as a Pending Worker and the enterprise or step checklist needs to be tied to the Add a Pending Worker action.
- C. Associate a life event with the checklist template to allocate the checklist to persons automatically when they experience the event.
- D. Managers can automatically allocate checklist templates to the persons whom they manage from the Onboarding work area.
- E. Associate the eligibility profile with the checklist template to allocate the checklist to persons automatically when they satisfy the criteria built in the eligibility profile.

Correct Answer: E

To achieve the required functionality, an eligibility profile needs to be created and associated with the checklist template. This will ensure that the checklist is automatically allocated to persons who satisfy the criteria built into the eligibility profile.
