QUESTION 1

Your customer has implemented English as base language and French as a local language. The customer's bank needs the payment file to be sent to them in French. What is the relevant step to do this for preparing the payment template?

- A. Create your template in English language, then upload it to Business Intelligence (BI) under the custom/ payment folder under the templates region with country locale.
- B. Create your template in the local language, then upload it to Business Intelligence (BI) under the custom/payment folder under the templates region with English locale.
- C. Create your template in the local language, then upload it to Business Intelligence (BI) under the custom/payment folder under the templates region. Use English locale and generate the XLIFF file. Then upload the file back under the translated region.
- D. Create your template in English language, then upload it to Business Intelligence (BI) under the custom/payment folder, under the templates region. Use English locale and generate the XLIFF file. Then upload the file back under the translated region.

Correct Answer: D

QUESTION 2

A Payment Process Request was submitted and errors were found in the payment file. The payment file and process were terminated.

Which two statements are true? (Choose two.)

- A. The invoices are placed on payment hold.
- B. The status of each payment in the payment file is Terminated.
- C. The status of the payment file is Terminated.
- D. The status of each payment in the payment file is Cancelled and the related documents are available for future selection.
- E. The status of the payment file is Cancelled.

Correct Answer: CD

If the payment file has been terminated and the documents payable have been returned to the source product, then the status of the Printed Payment File is Terminated. Oracle Fusion Payments informs the source product of the terminated documents payable. Then for each payment in the payment file, Payments sets the status to Canceled.
