Correct Answer: C

QUESTION 3

Your customer wants to transfer material from facility A to facility B. They are using the interorganization transfer to perform the transaction in the system. Their requirement is "whenever material is transferred from their facility A to facility B, facility B needs to pay 5% additional amount to the current item cost." Which task must be set up to accomplish this requirement?

- A. Manage Cost Plus Pricing
- B. Manage Organization Relationships
- C. Manage Cost Organization Relationships
- D. Manage Transfer Pricing Rules
- E. Manage Interorganization Markup

Correct Answer: C

QUESTION 4

Your customer has a complex financial reporting structure. Which three elements should you define first in order to form a basis for this reporting?

- A. Managerial, Operational, and Industry
- B. Legal, Autonomy, and Operational
- C. Tax, Legal, and Industry
- D. Legal, Managerial, and Functional

Correct Answer: D

QUESTION 5

As part of implementing Oracle Cloud for your customer, you defined multiple Business Units. The customer wants you to define an Inventory Organization that is associated with all the business units and not just one particular business unit.

How do you achieve this?

- A. Leave the Profit Center Business Unit field blank in the Inventory Organization definition.
- B. Leave the Management Business Unit field blank in the Inventory Organization definition.
- C. Define the Inventory Organization without associating it with any location.
- D. It is not possible to define an Inventory Organization that is associated with more than one business unit.

Correct Answer: D
