QUESTION 1

During a Manufacturing Cloud implementation, the Production Supervisor wants to close the work orders for last month and wants to make sure that the work orders include the correct cost. Identify the approach to be taken by the Production Supervisor.

- A. The Production Supervisor need not include cost variances while costing last month's work orders because those can be applied directly in subledger accounting.
- B. The Production Supervisor needs to include all costs and variances in last month's work orders and close them; however, the work orders where updates are expected, should not be closed.
- C. The Production Supervisor should make sure that all costs are included while closing last month's work orders; however, variances can be included after closing the work orders.
- D. Work order costs can be updated anytime regardless of the status of the work order.

Correct Answer: B

QUESTION 2

Identify the two capabilities that the Application Development Framework Desktop Integration (ADFDI) framework provides for Work Definitions in Manufacturing Cloud.

- A. You can mass create and update work definitions and their operations, items, and resources.
- B. You can mass create and update work definitions and their operations, items only and cannot add resources in work definitions.
- C. You can mass create and update work definitions and their operations only and cannot add items and resources in work definitions.
- D. You can copy work definitions form one organization to another organization.

Correct Answer: AD

QUESTION 3

Your customer runs two daily shifts in her plant: Morning Shift and Evening Shift. A resource LATHE is assigned to the work center W1. There are five units of LATHE available, of which three units are available for the Morning Shift and the remaining units are available for the Evening Shifts. Which two actions must you perform to associate LATHE with W1?

- A. Do not select the Available 24 Hours check box and in the Resource Availability region, enter 3 against the resource LATHE in the Morning Shift column.
- B. Select the Available 24 Hours check box and in the Resource Availability region, enter 3 against the resource LATHE in the Morning Shift column.
- C. Select the Available 24 Hours check box and in the Resource Availability region, enter 2 against the resource LATHE

in the Evening Shift column.

D. Do not select the Available 24 Hours check box and in the Resource Availability region, enter 2 against the resource LATHE in the Evening Shift column.

E. Do not select the Available 24 Hours check box and in the Resource Availability region, enter 60% against the resource LATHE in the Morning Shift column.

F. Do not select the Available 24 Hours check box and in the Resource Availability region, enter 40% against the resource LATHE in the Evening Shift column.

Correct Answer: BE

QUESTION 4

The Manufacturing Engineer, responsible for creating and maintaining the Work Definitions, has scheduled the Process Item Structure Changes to Work Definitions program. However, after the execution of the program the engineer did not receive a notification with the details of the Item Structure changes. Which two reasons could cause this?

- A. The engineer does not have Data access to Items Attributes.
- B. The engineer does not have Data access to Items.
- C. The engineer does not have Data access to Manufacturing plant in which the Item Structure change was performed.
- D. The engineer does not have Data access to Item Structures.
- E. The engineer does not have the Manage Work Definitions function privilege.

Correct Answer: CE

QUESTION 5

In what three ways can you set the overcompletion tolerance for a subcomponent yield, so the job order can report the excess production completion?

- A. Overcompletion Tolerance Type = Amount, value > 0
- B. Overcompletion Tolerance Type = Amount, value = 0
- C. Overcompletion Tolerance Type = Percentage, value = 100
- D. Overcompletion Tolerance Type = Percentage, value > 0
- E. Overcompletion Tolerance Type = Percentage, value = 0

Correct Answer: BDE
