QUESTION 5

Which two attributes can you use to group shipment lines into a single shipment? (Choose two.)

- A. Carrier
- B. FOB
- C. Item
- D. Sales Order
- E. Ship-to location

Correct Answer: BE

A shipment comprises a set of shipment lines, grouped by certain common shipping attributes, that are scheduled to be shipped to a customer's ship-to location on a specific date and time. You can include items from different sales orders in a shipment. You can either manually or automatically group shipment lines to create a shipment. The shipment lines are grouped by the mandatory default criteria: ship-from location and ship-to location. However, you may also include additional grouping criteria, such as customer, freight terms, FOB (Free on board), and shipping method.
