QUESTION 4

A global Power Systems manufacturer sells Uninterrupted Power Supply (UPS) products through its online portal. To gain competitive advantage, the manufacturer wants to enhance the ability of buyers to select a desired configuration of the high-end UPS models through guided selling options on its online selling portal. The company\'s product development team has finalized the enhancements, and needs your help to get them implemented on their online selling portal that is supported by Oracle Cloud Configurator.

What four actions would you take in Oracle Cloud Configurator to enhance a buyer\'s experience? (Choose four.)

A. You can allow buyers to raise requests if an expected product functionality is not offered.

B. You can create enhancements to the model structure that supplements the imported configurable structure of a model item.

C. You can create rules that will guide users in creating a valid model.

D. You can create user interfaces that will be dynamically presented to users based on the options chosen in the Configurator model.

E. You can test the behavior of the configured model anytime when you are editing it.

F. You can enable a checkout option for a model when a valid configuration is finalized.

G. You can display product reviews of customers who have purchased the same configuration earlier.

Correct Answer: BDFG

QUESTION 5

You are implementing the entire suite of Supply Chain Management Cloud for an auto component manufacturing and distribution company. This company has a manufacturing facility where different auto electrical components are produced to fulfill the demand that originates from various customers. One of the components that the company sells to its customers requires specialized operations; therefore, the company outsources it to an external manufacturer instead of producing it in its own facility.

Which two steps are required to fulfill the demand for this component through outsourced manufacturing? (Choose two.)

A. Define this component as an Item with the "Contract Manufacturing" field enabled and the "Make or Buy" attribute set to "Buy."

B. Define this component as an Item with the "Contract Manufacturing" field enabled and the "Make or Buy" attribute set to "Make."

C. Select the Customer Sales Order Fulfillment check box under the Procurement offering.

D. Create a sourcing rule of the Buy type for this component in the selling inventory organization.

E. Model the manufacturer to which the component production is outsourced as a Supplier in the enterprise.

F. Create a sourcing rule of the Make type for this component in the selling inventory organization.

Correct Answer: BE
