**QUESTION 1**

Which two are displayed on the user point of view bar within a financial report? Choose two.

- A. Dimensions that are tagged as type Time
- B. Dimensions that are tagged as type Account
- C. Dimensions not defined in a row, column, or page
- D. Dimensions in a row, column, or page that are flagged for the current point of view

Correct Answer: AD

A. Dimensions that are tagged as type Time are typically used to represent time periods, such as months or quarters, and are often displayed on the user point of view bar within a financial report.

D. Dimensions in a row, column, or page that are flagged for the current point of view are also displayed on the user point of view bar within a financial report. These dimensions are used to filter the data displayed in the report based on the user's preferences.

**QUESTION 2**

In what three ways can Service Administrators implement EPM Automate in Planning? (Choose three.)

- A. To copy data from an aggregate storage database to a block storage database
- B. To copy data from a block storage database to an aggregate storage database
- C. To execute scripts that complete tasks using a scheduler
- D. To import and export metadata, data, artifacts and snapshots
- E. To promote financial plans to the next level in the approval hierarchy

Correct Answer: BCD

Copy data from one database to another; typically, from a block storage database to an aggregate storage database. You can create scripts that are capable of completing a wide array of tasks and automate their execution using a scheduler. Import and export metadata, data, artifact and application snapshots, templates, and Data Management mappings.
