QUESTION 1

Which three statements are true when you want to view queries? (Choose three.)

A. You can view all public queries, and private queries that are in your list of queries.

B. If you want to run queries that are not saved in PeopleSoft Query, you can use the Run page in Query Manager.

C. Query Viewer is a version of Query Manager. It has the same functions, but in a different view.

D. You can run a predefined query from your browser and view it online using any of the following links on the Query Manager search page: HTML, Excel, or Schedule.

E. If you want to run multiple queries and run each query multiple times with different run-time prompt values, the Run page is more useful than the HTML, Excel, or Schedule links on the Query Manager search page.

Correct Answer: BDE

QUESTION 2

If your Crystal report contains numeric fields that are formatted to have single-line or double-line borders at the top of the container, you may experience incorrect justification of numbers in the HTML output.

Which two options would solve your problem? (Choose two.)

A. Draw lines above the numeric fields using the line drawing tool.

B. Insert summary fields into a blank text object and then format the container text object to include borders above the text.

C. Get full reporting flexibility by signing out and then successfully signing in to a PeopleSoft database using the PeopleSoft sign-in dialog.

D. Select the Design tab, save the report, return to the Preview tab, and click the Refresh button to refresh your data after making changes.

E. Select the Design tab and, in the Page Header section, double-click the field that has single-line or double-line borders at the top, and then click a blank area of thereport to deselect the text object.

Correct Answer: AB

QUESTION 3
