Correct Answer: D

QUESTION 3

For the Employee Expenses application, a PeopleCode program could be placed either on the EMPLOYEE record or on the EMP_EXPENSE component. You decide to place it on the component.

Which is a valid reason for choosing to place the program on the component instead of the record?

- A. The program updates multiple database tables.
- B. The program validates data across multiple records.
- C. Component PeopleCode executes before record PeopleCode, so it is more efficient.
- D. The record definition is used on several components, but this program should run only on this component.
- E. The program initializes fields on the search page, and the search record is associated with the component.
- F. The component contains several record definitions and you do not want to duplicate the code in each record.
- G. Component PeopleCode is more reusable because component PeopleCode is available for execution on other components.

Correct Answer: D
