QUESTION 2

A client has entered two purchase orders. Based on the total amount, the first purchase order is required to go through the approval process and has not yet been approved. The second purchase order does not require approvals. The items on each purchase order are now on the dock ready to be received. The receiving clerk can find only the purchase order that did not go through the approval process.
Identify the reason for this.

A. The processing option of the Enter Receipts by PO program is set to display only orders that have gone through the approval process and are activated.

B. The values in the Incoming Last Status Codes processing options of Enter Receipts by PO program do not include both values for the purchase orders.

C. The values in the Acceptable Incoming Next Status Codes processing options of the Enter Receipts by PO program do not include the value for unapproved purchase orders.

D. The Override Next Status Code Processing option in Purchase Order Entity (P4310) was not set to advance the second purchase order past an approved status.
