QUESTION 1

Which three rules will fail validation?

A. **A is true if**

either
B is true
or
any
C is true
and
D is true

B. **A is true if**

both
B is true
and
either
C is true
and
D is true

C. **A is true if**

b is set correctly
B is true
or
all
C is true
and
D is true

www.Lead4Pass.com

D. **A is true if**

either
B is true
and
any
C is true
or
D is true

E. **A is true if**

both
B is true
and
any
C is true

A. Option A

B. Option B

C. Option C

D. Option D

E. Option E

Correct Answer: BCD

QUESTION 2

You are given the following source material.

"The store must comply with the working regulations which are as follows. Employees under the age of 16 on the date they joined the company must not work more than 20 hours in any week. All other employees must not work more than 48 hours in any given week, unless they have chosen to opt out of the Working Time Directive regulations. Note the option to opt out is not available to employees under the age of 21."

You have created a policy model from the above source material, and have created and used all of the attributes below. Your rules include an entity of "the employee".

Which four are the minimal set of input attributes?

A. the number of hours the employee has worked in the week

B. the employee was aged under 16 on the date they joined the company

C. the employee has worked more than 48 hours in the week

D. the interview is complete

E. the employee is eligible to opt out of the Working Time Directive regulations

F. the employee has opted out of the Working Time Directive regulations

G. the employee\\'s date of birth

H. the date the employee joined the company

I. the store compiles with the working regulations

Correct Answer: CEFGH

QUESTION 3

Which two statements about connectors and grouping operators are correct?

A. AND and OR connectors must always be on separate lines to the attributes they are connecting.

B. A rule may contain AND and OR connectors.

C. Grouping operators reduce ambiguity in rules.

D. The grouping operator sits at the same level as the conditions it is grouping.

E. The ALL grouping operator sits at the same level as the conditions it is grouping.

Correct Answer: AB

QUESTION 4

You have a number attribute "the child\\'s age in years". In an interview, you want to ensure that the user is only able to enter ages between 0 and 15.

What are the three methods to achieve this?

A. Specify the maximum and minimum values within the Edit Attribute dialog box.

B. Write a warning event rule.

C. Use a regular expression within the Edit Attribute dialog box.

D. Write an error event rule.

E. Create a number value list with the allowed ages, then associate the list with the child\\'s age attribute.

Correct Answer: ADE

QUESTION 5

Which two statements are correct about using Collaboration on a Policy Modeling project?

A. Collaboration improves productivity in a multiuser environment by incorporating and merging certain changes made by different users.

B. Collaboration prevents any charge from being reverted before upload, thus ensuring only valid versions are uploaded.

C. Collaboration should be used when there are multiple users working on a project at the same time, because it avoids conflicts between user changes by immediately being aware of areas that others are working on.

D. Collaboration does not allow reuse of a project\\'s assets, because projects stored in the repository cannot be reused as project inclusions in other policy modeling projects.

E. Collaboration reduces the productivity of policy authoring for any project with more than one person.

Correct Answer: CD
