QUESTION 1

A client wants customers to be able to select a laptop category from a drop-down list in the product configuration section. After the laptop category is selected, all laptops within that category need to be displayed without the user having to do

any more selections.

Which option meets this requirement?

- A. Commerce library function
- B. Auto Update
- C. Util library function
- D. Formula Administration

Correct Answer: C

QUESTION 2

A new user group has been created in the development environment. Which approach would you use to migrate this new user group to the production environment?

- A. Migrate Commerce to the production environment.
- B. Migrate new user groups to the production environment.
- C. Manually create the new user groups in the production environment.
- D. Migrate the new users to the production environment.

Correct Answer: B

QUESTION 3

Which option is true about the BMQL statements in a library function?

- A. BMQL statements can query both user-created and system-defined data tables by using two separate queries.
- B. BMQL statements can query only system-defined data tables.
- C. BMQL statements can query both user-created and system-defined data tables by using a single query.
- D. BMQL statements can query only user-defined data tables.

Correct Answer: A

QUESTION 4

There are two single-select attributes in an Array set. The first single-select attribute shows a list of countries and the second shows a list of states. How can you show relevant states based on a chosen country?

- A. You can accomplish this by creating Hiding rules for each country with Simple Conditions, and then selecting valid states for the Action attribute. In this case, the number of Hiding rules will be equal to the number of countries.
- B. You can accomplish this by using the Hiding rule, which is the only possible option because Arrays do not support Constraint rules.
- C. You can accomplish this by loading all country and state combinations in a data table and writing a Constraint rule to lookup the data table.
- D. You can accomplish this by creating a Constraint rule for each country in the drop-down list by using Simple Conditions and by selecting valid states for the Action attribute of the rule. In this case, the number of rules will be equal to the number of countries in the list.

Correct Answer: A

QUESTION 5

Which two statements are false regarding Arrays?

- A. You can re-order the attributes to adjust the layout.
- B. You can add HTML type attributes to the Arrays.
- C. You can add Single select type attributes to the Arrays.
- D. Arrays support ajax based rules.

Correct Answer: AD
