QUESTION 1

You are designing a Business Process. In that process, you want to create a Form that has a required Data Element, which would indicate a specific facility in a specific country. There are thousands of facilities around the globe. You want to simplify the selection process for your users.

How is this accomplished.

- A. Create a Data Element that includes auto-population of facility names.
- B. Create a Text Box with auto-lookup functionality that fills in the facility name.
- C. Create a Data Picker that auto-populates country after the user selects a particular facility.
- D. Create a Data Picker that filters out all facilities in a drop-down menu after the user selects a particular country.

Correct Answer: D

QUESTION 2

Generic Cost Code Shells _____.

- A. define the Shell hierarchy
- B. define the Cost Breakdown Structure
- C. support Cost Manager functionality
- D. support configurable modules

Correct Answer: D

QUESTION 3

Your customer wants to copy a Shell template and include their Project Cost Sheet and Funding Sheets in the new template.
