QUESTION 1

You are a training administrator for your LearnCenter and are in the process of uploading a new SCORM course to your SFTP site. Upon accessing your SFTP client and trying to connect to your SFTP site, you are getting an error indicating that no connection could be established.

What could be the two reasons for this issue?

- A. You are trying to connect to your SFTP site via FTP instead of SFTP.
- B. You are using an unsupported SFTP client.
- C. Your IT department has suddenly blocked the SFTP port 22.
- D. You have entered an incorrect password.

Correct Answer: BD

QUESTION 2

Categories are usually mapped to an object when creating the object. Identify the object that does not provide the option to map Categories when creating that object.

- A. Course
- B. Enrollment
- C. Group
- D. Learning Plan

Correct Answer: C

QUESTION 3

You have been asked to create a new LearnCenter but the new site must not have any User Interface design in it or any pages.

Identify three possible ways to create the new Sub LearnCenter.

- A. Control Panel ?Copy Sub LearnCenters ?select the parent LearnCenter and copy using default settings
- B. Control Panel ?Sub LearnCenters ?Add Sub LearnCenter
- C. Control Panel ?Copy Sub LearnCenters ?select the parent LearnCenter and deselect "Pages and Page Layout"
- D. Management Controls ?Visual Manager ?Add a New LearnCenter

Correct Answer: ABD

QUESTION 4

An organization wants to deliver a LearnCenter exam, within a learning plan, that requires a minimum passing score of 80%.

What five learning objects are required to achieve this?

- A. Enrollment
- B. Learning Plan
- C. Instance
- D. Assessment
- E. Questions and answers
- F. Imported or LearnCenter course (WBT)

Correct Answer: ABCDE

QUESTION 5

Your client's Web-Based Training Courses change often. Their organization needs a process to dynamically display Web-based Training Courses organized by business unit on the LearnCenter pages.

How can you accomplish this?

- A. Create a Business Unit Profile for each business unit, map the business unit's training to the corresponding Business Unit Profile, and use the Business Unit Profile Dynamic Object on the LearnCenter page.
- B. Create a Category for each business unit, map the business unit's Web-Based Training Courses to the corresponding Category, and use the Course Category Dynamic Object on the LearnCenter page.
- C. Create a Certification Track for each business unit, map the business unit's training to the corresponding Certification Track, and use the Certification Track Dynamic Object on the LearnCenter page.
- D. Create a Skill for each business unit, map the business unit's training to the corresponding Skill, and use the Skill Inventory Dynamic Object on the LearnCenter page.

Correct Answer: A
