QUESTION 2

You need to configure the source database, target database, and Oracle GoldenGate for conflict detection and resolution (CDR). You want the full before image of each record, but your database does not provide a before image in the log record and must be configured to do so with supplemental logging.

How should you proceed?

- A. Include the OVERWRITE command.
- B. Include the USEDELTA command.
- C. Include the ADDTRANDATA command.
- D. Include the UPDATAROWEXISTS command.

Correct Answer: C

QUESTION 5

You are migrating from a legacy database server to Exadata, which requires you to use different versions of GoldenGate. What do you need to configure to ensure that backwards replication works?

- A. The Replicat with the FORMAT RELEASEparameter.
- B. The Extract with the FORMAT RELEASE parameter.
- C. The Extract to write directly to the remote trail.
- D. The collector with the FORMAT RELEASEparameter.

Correct Answer: A
