---

### QUESTION 3

Identify three for Oracle Enterprise manager that have Configuration Change Control functionality?

- A. Application management Pack
- B. Database Lifecycle Management Pack
- C. WebLogic Management Pack
- D. Real User Experience Insight Pack
- E. Data Masking Pack

Correct Answer: ABC

---

### QUESTION 4

What Oracle Enterprise Manager pack can you use to compare two database schemas?

- A. Data Masking pack
- B. Database Lifecycle Management pack
- C. Database Diagnostics pack
- D. Database Tuning pack

Correct Answer: B

Database Lifecycle Management Pack features include:

\* Schema and Data Comparisons: Automate the comparison of database schema and data across Databases or saved baselines.

Note:

The Database Lifecycle Management Pack is a comprehensive solution that helps database, system, and application administrators automate the processes required to manage the Oracle Database Lifecycle. It eliminates manual and time

consuming tasks related to discovery, initial provisioning, patching, configuration management and ongoing change management. In addition the Database Lifecycle Management pack provides compliance frameworks for reporting and management of industry and regulatory compliance standards.

Incorrect:

Not A: Oracle Data Masking Pack offers the ability to mask regulated or confidential data on test or development systems.

Reference: Oracle Enterprise Manager Licensing Information, Database Lifecycle Management Pack for Oracle Database
