Which statement is true about asset??

- A. All asset types within an instance of WebCenterStes have the same default metadata fields but different attribute fields.
- B. Assets can be revision-tracked and published.
- C. Only flex and basic asset types can go through a workflow.
- D. Only flex and basic assets are entered through the Contributor UI.

Correct Answer: A

---

## QUESTION 4

To reproduce an environment, which two backups are required at a minimum?

- A. cold backup of the database schema
- B. backup of the WebCenter Sites shared file system
- C. backup of the WebCenter Sites web applications
- D. backup of the Webserver configuration files

Correct Answer: AC

---

## QUESTION 5

Which three statements are true about flex assets?

- A. Flex asset types are part of an asset type structure called a flex family and therefore, can be made up of a pool of attribute assets for that flex family.
- B. A flex family can have only one flex asset type.
- C. The parent asset values inherited by a flex asset are stored in one of the flex asset type tables instead of the parent asset type tables.
- D. Attribute data is stored in records instead of columns in the database table so that they can be changed without editing the structure of the database table.
- E. Attribute editors and flex filters can be used but not named associations.

Correct Answer: ACD
