## QUESTION 3

Which functionality does WebCenter Sites Publishing use to ensure that there are no broken links or content?

- A. It can obtain workflow approval automatically prior to publishing.
- B. It evaluates asset dependencies before publishing.
- C. It copies asset information without the need for SQL queries to the publishing destination.
- D. It publishes code as well as content.

Correct Answer: B

---

## QUESTION 4

You have installed the Gadget server and are trying to register new gadgets for your site. When using the Admin UI, you do not see the asset type FW\_CSGadget listed in the search list, although this asset type is correctly enabled for your site. You can see "Find CS-Based Gadget" in the Start Menu for this asset type and it has been assigned "Any Role." Other asset types for the site can be searched but not FW\_CSGadget.

What could be the reason?

- A. By default, the Admin UI does not allow you to find non-structural assets.
- B. The gadget has not been properly registered.
- C. The default language of the gadget is mismatched.
- D. When registering the gadget, Show Gadget was not selected.
- E. The XML registration of the gadget is corrupted.

Correct Answer: B

---

## QUESTION 5

In a default installation, which three users exist in the SystemUsers table?

- A. Fwadmin
- B. csuser
- C. ContentServer
- D. DefaultReader
- E. SatelliteServer

Correct Answer: BCE
