- B. A capability describes a best practice for successful adoption/execution of SOA.
- C. A capability describes how industry standards should be applied within a SOA Initiative.
- D. A capability describes how technology should be applied for successful adoption/execution of SOA.
- E. A capability describes a pair-wise joining of technology and standards important to SOA adoption.

Correct Answer: D

QUESTION 3

During Service identification and discovery, which three reasons you would use a business function model?

- A. To identify functional overlap and linkages in the SOA project selection process
- B. To summarize what an enterprise does and the relationship between those functions
- C. Identify the high-level business processes in the organization
- D. Define the organizational structure for the business
- E. Provide a structure for a federated enterprise service bus deployment

Correct Answer: BDE

QUESTION 4

Which list best describes the top three levels in the business function model hierarchy?

- A. Top Level Domains, Core Business Processes, and Business Step
- B. Business Functions, Business Activity, and Business Task
- C. Business Functions, Process Groups, and Core Business Processes
- D. Enterprise, Line of Business, and Department
- E. There is no common hierarchy because each organization has a different organizational structure.

Correct Answer: C

QUESTION 5

Which three statements differentiate SOA requirements from project requirements?

- A. SOA requirements are not owned by any single application, consist of their own lifecycle, and are managed independently.
- B. SOA requirements are developed iteratively with the business and mapped onto the enterprise business function model.
- C. SOA requirements have a classification that reflects the project that implemented them.
- D. SOA requirements are managed at the enterprise level.
- E. SOA requirements are concerned with the Services that deliver integration capabilities.
- F. SOA requirements are refined into project requirements.

Correct Answer: ABC
