QUESTION 1

Which two components can be installed on the administrator's computer to support Planning and Budgeting Cloud (PBCS)? (Choose two.)

- A. Strategic Modeling
- B. Calculation Manager
- C. EPM Automate
- D. The Simplified User Interface

Correct Answer: BD

The EPM Automate Utility enables Service Administrators to remotely perform tasks in for example Oracle Enterprise Planning and Budgeting Cloud. The EPM Automate Utility installer for Windows and Linux/UNIX is available from the service.

QUESTION 2

Which three can be automated with EPMAutomate? (Choose three.)

- A. Send an email to users
- B. Run a Business Rule
- C. Import a file into the ePBCS's inbox
- D. Import user security
- E. Migrate a backup between test and production

Correct Answer: BCE

EPM Automate Utility enables Service Administrators to automate many repeatable tasks including the following:

QUESTION 3

Which two statements are true regarding the creation and management of business rules within the business process frameworks? (Choose two.)

- A. The business process frameworks cannot use regular business rules ?they must be scripted in Groovy
- B. Custom business rules can be created for the business process frameworks
- C. The pre-built framework business rules cannot be modified directly and saved

D. Custom business rules for the business process frameworks can only be created using the graphical designer

Correct Answer: BC

PBCS allows for flexibility to make changes to business rules and templates behind the business rules.

QUESTION 4

To staff resources onto initiatives, which custom dimension is required in the Map/Rename Dimensions section?

- A. Programs
- B. Initiatives
- C. Electives
- D. Projects

Correct Answer: D

If you are integrating Workforce or Capital with Projects, add a custom dimension called Project, the default dimension name in Projects. If you name it anything else, make sure the dimension name is the same in all business processes.

QUESTION 5

Which LCM Category is required to restore Essbase data?

- A. Calculation Manager
- B. Planning
- C. Data Management
- D. Groups and Memberships

Correct Answer: C

Users performing Lifecycle Management (LCM) operations for Essbase must be assigned the following roles: LCM Administrator, Server Access, Calc, and Database Manager.

The Database Manager role is required to import into destination applications.
