QUESTION 1

After a power failure, the Fabric Interconnects have lost their configuration and must be restored from a previous UCS backup operation.

Which type of configuration would be used to resolve this problem?

A. System configuration

B. Logical configuration

C. All configuration

D. Full state

Correct Answer: D

QUESTION 2

What is the result of using the same VLAN ID for both a VLAN and an FCoE VLAN in a VSAN?

A. All traffic is automatically forced to 10 GbE speed and jumbo frames enabled.

B. A critical fault will be created with traffic disruption for all vNICs and uplink ports using that VLAN.

C. A warning fault will be created with performance degradation within the VLAN.

D. FCoE traffic will be forced down to the speed and frame size set on the vNICs

Correct Answer: B

QUESTION 3

You need to reconfigure storage on your VNX and you do not want to disrupt your ESXi host. This activity will require rebuilding some of the LUNs that are currently presented to ESXi hosts.

Which action must be performed on vCenter to meet this requirement?

A. Unmount data stores associated with LUNs that will be reconfigured.

B. Rename data stores associated with LUNs that will be reconfigured.

C. Enable storage I/O control on data stores associated with LUNs that will be reconfigured.

D. Upgrade the data store to VMFS5.

Correct Answer: A

QUESTION 4

A new Vblock® System 720 customer is interested in managing initiator groups and monitoring virtual provisioning.

Which element manager would you recommend?

A. VCE VisionTM Intelligent Operations

B. Unisphere

C. UCSM

D. Data Center Network Manager

Correct Answer: B

QUESTION 5

You receive a high priority new VM request that requires the creation of redundant VMs with host redundancy.

Which vCenter task must be performed to satisfy this requirement?

A. Configure host and VM monitoring.

B. Configure a VM-Hosts affinity rule in vSphere DRS.

C. Configure a custom VM monitoring rule in vSphere HA.

D. Configure a VM-VM affinity rule in vSphere DRS.

Correct Answer: D
