QUESTION 1

Altiris Client Management Suite 7.1 Solutions (such as Patch Management Solution, Inventory Solution, and Software Delivery Solution) have been integrated into the Software Management Framework. What is a benefit of this integration?

- A. It allows all applications installed on the framework to be accessed by all solutions.
- B. It allows different versions of an application installed on the framework to run side by side.
- C. It allows all solutions built on the framework to eliminate duplication of work and data.
- D. It allows all solutions built on the framework to use different sets of resources.

Correct Answer: C

QUESTION 2

Which information does a file properties inventory scan gather?

- A. internal name, original file name, and manufacturer data
- B. internal name, file size, and manufacturer data
- C. legal trademark, file size, and extension data
- D. language, file path, and extension data

Correct Answer: B

QUESTION 3

Which two are required for full use of the Symantec Management Console? (Select two.)

- A. Java Runtime Environment
- B. Adobe Shockwave
- C. Microsoft Silverlight
- D. Adobe Air
- E. Windows Deployment Services

Correct Answer: AC

QUESTION 4

Microsoft Office has been successfully pushed out as a Quick Delivery task to a group of systems. When the

administrator checks the report of software currently installed on the systems, the newly delivered software is missing. Why is the installed software missing from the report?

- A. The detection rule for Office was configured with an incorrect MSI code.
- B. The most recent Software Inventory scan was run before the delivery was completed.
- C. SQL Server timed out during the building of the report, causing incomplete report results.
- D. The Software Management Solution Agent needs to be installed on the targeted computers.

Correct Answer: B

QUESTION 5

Which two agents or plug-ins are required for Patch Management to successfully deploy client patches? (Select two.)

- A. Symantec Management Agent
