## QUESTION 1

An administrator is trying to synchronize a new blueprint into the App-Dev project. The administrator copies the blueprint code directly from Cloud Assembly into a text file and uploads it into the Github repository so that it can be synchronized to the App-Dev project.

When the administrator clicks `Synch Repos`, a new blueprint does not appear.

Which step must the administrator take to allow it to synchronize from the Github repository?

- A. Clone the blueprint.
- B. Release the blueprint.
- C. Upload the blueprint.
- D. Add the name and version to the blueprint YAML code.

Correct Answer: D

---
