QUESTION 1

DRAG DROP

Drag and drop the high-level configuration steps for smart card authentication on the left into the correct sequential order on the right.
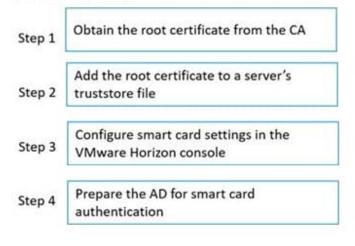

Select and Place:

Smart Card Authentication Step	Correct Sequence
Obtain the root certificate from the CA	Step 1
Prepare the AD for smart card authentication	Step 2
Configure smart card settings in the VMware Horizon console	Step 3
Add the root certificate to a server's truststore file	Step 4

Correct Answer:

Smart Card Authentication Step	Correct Sequence	
	Step 1	Obtain the root certificate from the CA
	Step 2	Add the root certificate to a server's truststore file
	Step 3	Configure smart card settings in the VMware Horizon console
	Step 4	Prepare the AD for smart card authentication

https://docs.vmware.com/en/VMware-Horizon/2111/horizon-console-administration/GUID-FA1A85D8-07B1-4140-A34B-7F20618083CE.html

QUESTION 2

An administrator is tasked with allowing managers to request desktops and changes to desktops for their employees. What VMware solution can be used to meet this requirement?

A. vRealize Operations

B. Horizon Automated Pools

C. vRealize Automation

D. Horizon Help Desk

Correct Answer: C

https://docs.vmware.com/en/VMware-Horizon-7/7.13/using-vro-plugin-for-horizon/GUID-60AE2989-8D25-4C43-BB7C-64F370C25D0E.html For an end-user enablement, vRealize Orchestrator Plug-in for Horizon integrates with vRealize Automation to provide self-service access to applications and desktops. The plug-in workflows can be integrated with the request and approval processes that are built into the vRealize Automation service catalog, allowing end users to refresh their own desktops. End users can make requests that follow a standardized and auditable process that can result in immediate action, or they can direct their requests for administrative approval. For desktop environments where virtual machines must support rapid change and reuse, end users can provision desktops for themselves and de-provision, or recycle, the desktops to reduce waste of resources and capacity.

QUESTION 3

A junior-level Horizon administrator is not able to see all RDS farms.

Where would a high-level administrator need to make changes to correct the issue?

A. Global Entitlements

B. Global Policies

C. Category Folder

D. Access Groups

Correct Answer: D

"...You configure administrator access to the resources in an access group by assigning a role to an administrator on that access group. Administrators can access the resources that reside only in access groups for which they have assigned

roles..."

"...You can use Horizon Administrator to create access groups and to move existing desktop pools to access groups. When you create an automated desktop pool, a manual pool, or a farm, you can accept the default root access group or

select a different access group..."

QUESTION 4

Which of the following statements are true about Application Profiler?

A. VMware Dynamic Environment Manager Agent and the Application Profiler cannot be installed on the same machine.

B. Application Profiler is installed using VMware Dynamic Environment Manager Enterprise Setup Wizard and explicitly selecting local drive installation.

C. Application Profiler is installed automatically when installing VMware Dynamic Environment Manager FlexEngine.

D. Application Profiler is installed automatically when installing Dynamic Environment Manager Management Console.

Correct Answer: A

https://docs.vmware.com/en/VMware-Dynamic-Environment- Manager/2209/com.vmware.dynamic.environment.manager-app-profiler/GUID-9953CA10-936F-4104-925B-A8217CB9B78B.html

QUESTION 5

An administrator has been tasked with determining the type of Horizon deployment for their organization. These requirements have been provided to the administrator:

1.

It must support Windows 7 and Windows 10 desktops.

2.

It must support App Volumes Cloud.

3.

It must support hybrid cloud.

4.

It must support Centralize brokering.

5.

It must automatically route end to the most appropriate virtual workspace. Which deployment solution meets the requirements?

A. Horizon On-Premises

B. vSphere Desktop Edition

C. Workspace ONE Unified Endpoint Management

D. Horizon Cloud Service on Azure

Correct Answer: D

https://blogs.vmware.com/euc/2019/09/windows-virtual-desktop-horizon-azure.html
