## QUESTION 1

A new catalog item was added to an existing service named DMZServers, but it is NOT appearing in the catalog. All of the other items in the service appear correctly.

Which of the following would explain this behavior?

- A. The entitlement needs to be reactivated.
- B. The catalog item still requires actions to be associated.
- C. The catalog items were assigned to the entitlement individually.
- D. There is an approval policy on the entitlement.

Correct Answer: C
