QUESTION 4

When a user runs the actions to increase CPU count or the amount of memory on a virtual machine, a Power Off Allowed option is included. What is the impact of NOT selecting this option?

- A. The action will NOT complete and NO CPU or memory will be added to the virtual machine.
- B. The action will complete, but CPU or memory may NOT be visible on the guest OS until the OS is rebooted.
- C. The action will notify vCenter to reconfigure the virtual machine the next time it is power-cycled.
- D. The virtual machine will be put into suspended mode during the CPU or memory change.

Correct Answer: B

Reference: <https://pubs.vmware.com/vrealizeoperationsmanager-62/index.jsp?topic=%2Fcom.vmware.vcom.core.doc%2FGUID-DC0169D4-ED6C-4E18-8FAA-0088187C3DA6.html>

QUESTION 5

An application group in vRealize Operations is a container construct that represents a collection of which two components? (Choose two.)

- A. Independent hardware components
- B. Interdependent hardware components
- C. Independent software components
- D. Interdependent software components

Correct Answer: BD
