QUESTION 1

Refer to the exhibit.

An organization recently implemented network device administration using Cisco ISE. Upon testing the ability to access all of the required devices, a user in the Cisco ISE group IT Admins is attempting to login to a device in their organization's finance department but is unable to. What is the problem?

- A. The IT training rule is taking precedence over the IT Admins rule.
- B. The authorization conditions wrongly allow IT Admins group no access to finance devices.
- C. The finance location is not a condition in the policy set.
- D. The authorization policy doesn't correctly grant them access to the finance devices.

Correct Answer: D

QUESTION 2

MacOS users are complaining about having to read through wordy instructions when remediating their workstations to gain access to the network. Which alternate method should be used to tell users how to remediate?

- A. URL link
- B. message text
- C. executable
- D. file distribution

Correct Answer: A

<https://www.sciencedirect.com/topics/computer-science/remediation-action>

QUESTION 3

An engineer is configuring a new switch to deploy in the campus network. The task is to configure TACACS+ and RADIUS authentication using the new switch and Cisco ISE. What is the procedure for adding this new switch on the network resources page?

- A. network devices profiles > add
- B. default device > add
- C. network devices > add
- D. network devices groups > add

Correct Answer: C

QUESTION 4

During BYOD flow, from where does a Microsoft Windows PC download the Network Setup Assistant?

- A. Cisco App Store
- B. Microsoft App Store
- C. Cisco ISE directly
- D. Native OTA functionality

Correct Answer: C

QUESTION 5

Which permission is common to the Active Directory Join and Leave operations?

- A. Create a Cisco ISE machine account in the domain if the machine account does not already exist
- B. Remove the Cisco ISE machine account from the domain.
- C. Set attributes on the Cisco ISE machine account
- D. Search Active Directory to see if a Cisco ISE machine account already exists.

Correct Answer: D
