QUESTION 1

Lizzy, an analyst, wants to recognize the level of risks to the organization so as to plan countermeasures against cyber attacks. She used a threat modelling methodology where she performed the following stages: Stage 1: Build asset-based threat profiles Stage 2: Identify infrastructure vulnerabilities Stage 3: Develop security strategy and plans Which of the following threat modelling methodologies was used by Lizzy in the aforementioned scenario?

- A. TRIKE
- B. VAST
- C. OCTAVE
- D. DREAD

Correct Answer: C

QUESTION 2

In which of the following forms of bulk data collection are large amounts of data first collected from multiple sources in multiple formats and then processed to achieve threat intelligence?

- A. Structured form
- B. Hybrid form
- C. Production form
- D. Unstructured form

Correct Answer: D

QUESTION 3

Sarah is a security operations center (SOC) analyst working at JW Williams and Sons organization based in Chicago. As a part of security operations, she contacts information providers (sharing partners) for gathering information such as collections of validated and prioritized threat indicators along with a detailed technical analysis of malware samples, botnets, DDoS attack methods, and various other malicious tools. She further used the collected information at the tactical and operational levels.

Sarah obtained the required information from which of the following types of sharing partner?

- A. Providers of threat data feeds
- B. Providers of threat indicators
- C. Providers of comprehensive cyber-threat intelligence
- D. Providers of threat actors

Correct Answer: C

QUESTION 4

Alice, a threat intelligence analyst at HiTech Cyber Solutions, wants to gather information for identifying emerging threats to the organization and implement essential techniques to prevent their systems and networks from such attacks. Alice is searching for online sources to obtain information such as the method used to launch an attack, and techniques and tools used to perform an attack and the procedures followed for covering the tracks after an attack.

Which of the following online sources should Alice use to gather such information?

- A. Financial services
- B. Social network settings
- C. Hacking forums
- D. Job sites

Correct Answer: C

QUESTION 5

Alison, an analyst in an XYZ organization, wants to retrieve information about a company's website from the time of its inception as well as the removed information from the target website.

What should Alison do to get the information he needs.

- A. Alison should use SmartWhois to extract the required website information.
- B. Alison should use <https://archive.org> to extract the required website information.
- C. Alison should run the Web Data Extractor tool to extract the required website information.
- D. Alison should recover cached pages of the website from the Google search engine cache to extract the required website information.

Correct Answer: C
