QUESTION 1

An administrator is patching a production Stretched Cluster using VMware Update Manager. Which statement is accurate?

- A. The witness hosts can be patched using normal patch processes with VMware Update Manager.
- B. Witness hosts cannot be patched or upgraded using VMware Update Manager.
- C. The witness host does not need to be upgraded as there is no data on the node, just metadata.
- D. The witness host must be deleted and a new witness host must be deployed.

Correct Answer: A

QUESTION 2

Which two statements are true about a vSAN Cluster when the vCenter Server managing it is offline? (Choose two.)

- A. vSAN health information is available through esxcli commands.
- B. vSAN continues to operate and all VMs inherit the default vSAN storage policy.
- C. Use a Web browser to monitor vSAN through the vSphere Host Client.
- D. Manage and view vSAN health information using RVC commands.
- E. vSAN continues to operate, but vSAN performance metrics will be lost.

Correct Answer: DE

QUESTION 3

An administrator is working with an application which has three characteristics:

latency sensitive database striped over multiple virtual disks no application redundancy

Which storage policies meet the VM performance and cluster constraint while protecting against at least 1 failure?

- A. RAID 6, Stripe Width 2
- B. RAID 1, Stripe Width 2
- C. RAID 1, Stripe Width 1
- D. RAID 5, Stripe Width 1

Correct Answer: D

QUESTION 4

The clomd service has stopped on 1 host in a 3-node vSAN cluster. All other services on the host, as well as the other 2, are healthy. Additionally, the unmodified vSAN Default Storage Policy is in use. Which would be an expected outcome for a new VM deployed into the vSAN cluster?

- A. VM deployment will fail.
- B. VM deployment will complete but VM IO will fail.
- C. VM deployment will complete but performance will be degraded.
- D. VM deployment will be deferred by vCenter.

Correct Answer: C

QUESTION 5

A healthy vSAN Stretched Cluster has the existing vSAN Witness Host swapped for a new vSAN Witness Host using the "Change Witness Host" wizard. If the administrator takes no further action, which two does the vSAN Health Check report show? (Choose two.)

- A. Performance Service

Correct Answer: CE
