QUESTION 1

At the beginning of the second mathematics lesson, you want to engage students and remind them of the learning objectives.

What should you use?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. a presentation that models the learning outcome
- B. an audio recording that defines symmetry
- C. a graphics application that displays symmetrical objects
- D. a printed handout that contains an outline of the learning objectives

Correct Answer: C

QUESTION 2

You want the students to collect information from organizations that they find on the Internet.

Which instructions or advice should you provide to the students?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Have the information sent to the student's home e-mail address.
- B. Only request information from organizations that have a secure Web site.
- C. Have the information sent to the school's e-mail address.
- D. Only request information from organizations that have a Web site that requires registration.

Correct Answer: C

QUESTION 3

You are an environmental education teacher.

Your students are doing a collaborative project with students from another country using Information and Communication Technology (ICT). You create an activity that requires your students to use presentation software to display pictures and

videos of local birds. The students will then email the presentation to the foreign students.

You discover that the file size of the presentation exceeds the size limit set by your email provider.

You want to ensure that the students can send the presentation by email.

What should you advise the students to do?

- A. In the presentation, reduce the font sizes and deactivate the custom animations.
- B. Remove the pictures and the videos from the presentation.
- C. Convert the presentation file to a bitmap image.
- D. Compress the video files and the pictures before inserting them into the presentation.

Correct Answer: D

QUESTION 4

The teachers are concerned that their lack of experience with video conferencing will hinder their ability to achieve the planned lesson.

What advice should you provide to the teachers to help them achieve the planned lesson?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Tell them that video conferencing is a simple process and not to worry.
- B. Start by using technology that they are most familiar with.
- C. Teach students the benefits of video conferencing before the lesson.
- D. Test the video conferencing equipment before the lesson.

Correct Answer: D

QUESTION 5

The school recently implemented the planned ICT changes and deployed laptops in your classroom.

Some of the laptops can access to the Internet, while others cannot.

You want to ensure that all of the laptops can access the Internet.

What should you verify?

- A. the wired network connection of the laptops
- B. the wireless network connection of the laptops
- C. whether the Internet router is on
- D. whether the laptops are plugged into a power outlet

Correct Answer: B
