QUESTION 1

You want to explain how the planned ICT changes will most benefit your own productivity?

Which benefit should you refer to?

This item is part of a case study. To view the case study information, click on the Case Study button below.

A. You will be able to access professional development resources.

B. You will be able to communicate with the parents more often.

C. You will be able to produce better lesson plans.

D. You will be able to use online tools for formative assessments.

Correct Answer: C

QUESTION 2

You are a teacher at a secondary school. You work closely with the school administration.

A group of parents questions the large sum of money that the school invests in Information and

Communication Technology (ICT) resources.

You are requested to prepare a response on behalf of the school.

On which argument will you base your response?

A. Modern economies increasingly require a workforce that has good typing skills, so the school must try to incorporate computers into all its activities.

B. Modern economies are increasingly based on knowledge and information, so students must learn the skills required to handle information.

C. The business sector in modern economies increasingly expects schools to produce students who are qualified in financial knowledge.

D. Modern economies increasingly depend on the growth of the computer manufacturing industry, an economic sector that schools must support.

Correct Answer: B

QUESTION 3

The school plans to deploy six of the planned laptops in each classroom.

You were asked to recommend a solution that enables each student to use the laptops as part of a group

project.

What should you recommend?

This item is part of a case study. To view the case study information, click on the Case Study button below.

A. Make your classroom available to students at lunchtime and after school.

B. Have all the groupsfirst plan their project, and then book timeslots for computer use.

C. Assign one computer to each group.

D. Let students from any group use any of the computers as needed.

Correct Answer: C

QUESTION 4

You are an environmental education teacher.

Your students are doing a collaborative project with students from another country using Information and Communication Technology (ICT). You create an activity that requires your students to use presentation software to display pictures and

videos of local birds. The students will then email the presentation to the foreign students.

You discover that the file size of the presentation exceeds the size limit set by your email provider.

You want to ensure that the students can send the presentation by email.

What should you advise the students to do?

A. In the presentation, reduce the font sizes and deactivate the custom animations.

B. Remove the pictures and the videos from the presentation.

C. Convert the presentation file to a bitmap image.

D. Compress the video files and the pictures before inserting them into the presentation.

Correct Answer: D

QUESTION 5

You have to meet the professional development objectives by using the ICT resources.

What should you do?

This item is part of a case study. To view the case study information, click on the Case Study button below.

A. Use a laptop to take notes during professional seminars at a local university or college.

B. Join online educator networks to exchange ideas.

C. Create a blog and ask the students to comment on your lessons and your blog posts.

D. Download ready-made materials to use during your lessons.

Correct Answer: D
