QUESTION 1

The teachers are concerned that their lack of experience with video conferencing will hinder their ability to achieve the planned lesson.

What advice should you provide to the teachers to help them achieve the planned lesson?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Tell them that video conferencing is a simple process and not to worry.
- B. Start by using technology that they are most familiar with.
- C. Teach students the benefits of video conferencing before the lesson.
- D. Test the video conferencing equipment before the lesson.

Correct Answer: D

QUESTION 2

You want to identify the primary benefit of using ICT during the persuasive writing lesson.

Which benefit should you identify?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. In today's world, writing is mostly done on a computer.
- B. ICT helps students develop word processing skills.
- C. The computer lab is used regularly.
- D. Word processing applications allow students to easily edit and modify text.

Correct Answer: D

QUESTION 3

You are a teacher at a secondary school. You have 30 students in your class. Your classroom contains 10 laptop computers.

You plan a project for the students. You will provide the students with information in three different formats: audio recordings, photographs, and printed documents. The students must combine the information to produce graphs and charts in a detailed report.

What is the best way to organize the project?

- A. Divide the project into a series of separate tasks. Allocate each task to a different student. Ask all of the students to create their own detailed report.

B. Create a rotation schedule for the classroom computers. Ask every student to use their turn on the computer to produce their own detailed report.

C. Provide all of the information to all of the students. Ask every student to explain how they will achieve the goals of the project.

D. Divide the class into 10 groups.

Ask the groups to work collaboratively to assemble the detailed report.

Correct Answer: D

QUESTION 4

You are preparing to teach the second mathematics lesson.

Which two tasks should you perform to ensure that the students benefit most from working in the computer lab? (Each correct answer presents part of the solution. Choose two.)

This item is part of a case study. To view the case study information, click on the Case Study button below.

A. Verify that the Internet connection is only available on the teacher's computer.

B. Verify that the printer has enough paper.

C. Ensure that the data projector works.

D. Verify that the computers have the appropriate software installed.

E. Ensure that the USB drives have free space available.

Correct Answer: CD

QUESTION 5

You want to identify which tasks in the planned learning activity incorporate the use of the computer lab.

Which task should you identify?

This item is part of a case study. To view the case study information, click on the Case Study button below.

A. The students must hang the posters in the entrance hall of the school.

B. The students must assemble the images on a wall poster.

C. The students must select and edit digital images that illustrate the theme or the event.

D. The students must split into small groups and each group must identify a theme or a historical event.

Correct Answer: C
