QUESTION 1

NOTE: This question is part of a series of questions that present the same scenario. Each question in the series holds a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You need to configure external user sharing for One Drive.

Solution: You set the value of the OneDrive External sharing option to New and existing external users.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: A

QUESTION 2

You are the Office 365 administrator for your company. Employees share documents with internal and external users on Microsoft SharePoint Online sites.

User1 inadvertently shares a link to Document1 with an external user named Customer1.

You need to remove access to Document1 from Customer1.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Answer Area

In the properties window, click **Withdraw**.

Display the Site Settings page.

Click **Access requests and invitations.**

Point to Customer1, and then click the associated **Open Menu** button.

Remove the SharePoint Online license from Customer1.

Open the SharePoint library that contains the shared document.

Correct Answer:

Answer Area

Open the SharePoint library that contains the shared document.

Display the Site Settings page.

Click **Access requests and invitations.**

Point to Customer1, and then click the associated **Open Menu** button.

In the properties window, click **Withdraw**.

Remove the SharePoint Online license from Customer1.

If you want to withdraw an invitation you have sent to an external user, you can revoke the invitation before it is accepted.

QUESTION 3

You are the Office 365 administrator for your company. The company recently subscribed to Office 365 ProPlus.

When performing a test deployment, you receive the following error message: "Windows cannot find

`C:\Program files\Microsoft Office 15\clientX64\integratedOffice.exe\.\\' Make sure you typed the name correctly, and then try again."

You need to successfully complete the test deployment.

Which two actions can you perform to achieve this goal? Each correct answer presents a complete solution.

A. Download the Office 365 ProPlus package to a file share, and then deploy Office 365 ProPlus by using Group Policy.

B. Automate the installation of Office 365 ProPlus applications by using Microsoft System CenterConfiguration Manager.

C. Manually remove the registry subkeys associated with Office 2013, and then restart the Office 365 ProPlus installation.

D. Completely uninstall existing versions of Office 2013 and then restart the Office 365 ProPlus installation.

Correct Answer: CD

You\'re seeing this error because another Office 2013 product isn\'t completely removed from the PC.

Remove it by uninstalling it or manually remote the proper Office 365 ProPlus registry entries.

QUESTION 4

You are the Office 365 administrator for a company. Only the administrators group has permissions to create sites in Microsoft SharePoint Online.

You must create a SharePoint Online site that meets the following requirements:

Broadcast product release information to all employees.

Display images and brief descriptions of products.

Ensure that only the marketing manager can modify the site.

You need to create the SharePoint Online site.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Click **Create site** and select Team site.

Click **Create site** and select Communication site.

Connect to the Office 365 SharePoint home page as the marketing manager.

Connect to the Office 365 SharePoint home page as an administrator.

Select the **Topic** site design option.

Select the **Showcase** site design option.

Answer Area

Correct Answer:

Actions

Click **Create site** and select Team site.

Connect to the Office 365 SharePoint home page as the marketing manager.

Select the **Topic** site design option.

Answer Area

Connect to the Office 365 SharePoint home page as an administrator.

Click **Create site** and select Communication site.

Select the **Showcase** site design option.

QUESTION 5

An organization has an Office 365 tenant that uses an Enterprise E3 subscription. The organization plans to migrate users to Office 365. You do not want users to install Office 365 ProPlus until you

complete the migration.

You need to prevent all users from self-provisioning Office 365 ProPlus.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Correct Answer:

As an Office 365 admin, you can use the User software page in the Office 365 admin center to choose whether users can install Office software from the Office 365 portal. For example, you might want to let users install Word, Excel, and

PowerPoint, but not Visio.

Whatever you decide to do, your choice applies to all users.

To choose which Office software that users can install from the portal Sign in to Office 365 with your work or school account.

Go to the Office 365 admin center, and then choose Service Settings > User software.

In the Manage user software through Office 365 section you\\'ll see a list of available Office software.

If the check box is selected, users can install that Office software. By default, all check boxes are selected.

Clear the check box if you don\\'t want users to install that Office software.

If you make a change, click Save.
