QUESTION 1

You develop a Microsoft SQL Server 2012 database. You create a view from the Orders and OrderDetails tables by using the following definition.

```
CREATE VIEW vOrders
WITH SCHEMABINDING
AS
SELECT o.ProductID,
    o.OrderDate,
    SUM(od.UnitPrice * od.OrderQty) AS Amount
FROM OrderDetails AS od INNER JOIN
    Orders AS o ON od.OrderID = o.OrderID
WHERE od.SalesOrderID = o.SalesOrderID
GROUP BY o.OrderDate, o.ProductID
GO
```

You need to improve the performance of the view by persisting data to disk. What should you do?

A. Create an INSTEAD OF trigger on the view.

B. Create an AFTER trigger on the view.

C. Modify the view to use the WITH VIEW_METADATA clause.

D. Create a clustered index on the view.

Correct Answer: D

QUESTION 2

You administer a Microsoft SQL Server 2012 database that has multiple tables in the Sales schema.

Some users must be prevented from deleting records in any of the tables in the Sales schema.

You need to manage users who are prevented from deleting records in the Sales schema. You need to achieve this goal by using the minimum amount of administrative effort.

What should you do?

A. Create a custom database role that includes the users. Deny Delete permissions on the Sales schema for the custom database role.

B. Include the Sales schema as an owned schema for the db_denydatawriter role. Add the users to the db_denydatawriter role.

C. Deny Delete permissions on each table in the Sales schema for each user. D- Create a custom database role that

includes the users. Deny Delete permissions on each table in the Sales schema for the custom database role.

Correct Answer: A

QUESTION 3

You administer a Microsoft SQL Server 2012 database. The database has a table named Customers owned by UserA and another table named Orders owned by UserB. You also have a stored procedure named GetCustomerOrderInfo

owned by UserB. GetCustomerOrderInfo selects data from both tables.

You create a new user named UserC.

You need to ensure that UserC can call the GetCustomerOrderInfo stored procedure. You also need to assign only the minimum required permissions to UserC.

Which permission or permissions should you assign to UserC? Choose all that apply.

A. The Select permission on Customers

B. The Execute permission on GetCustomerOrderInfo

C. The Take Ownership permission on Customers

D. The Control permission on GetCustomerOrderInfo

E. The Take Ownership permission on Orders

F. The Select permission on Orders

Correct Answer: AB

Reference:

The question seems to be missing something. Or the original answer is incorrect. I\\\'ve changed it to what I believe to be the correct answer. The original answer included "The Select permission on Orders.", but due to ownership chaining, you

would only need to give Execute permissions to UserC to access the Orders table since UserB is the owner.

QUESTION 4

You administer a Microsoft SQL Server 2012 instance that has several SQL Server Agent jobs configured.

When SQL Server Agent jobs fail, the error messages returned by the job steps do not provide the required detail.

The following error message is an example error message:

"The job failed. The Job was invoked by User CONTOSO\ServiceAccount. The last step to run was step 1 (Subplan_1)."

You need to ensure that all available details of the job step failures for SQL Server Agent jobs are retained.

What should you do?

A. Configure output files.

B. Expand agent logging to include information from all events.

C. Disable the Limit size of job history log feature.

D. Configure event forwarding.

Correct Answer: A

Reference: http://msdn.microsoft.com/en-us/library/ms175488.aspx

QUESTION 5

Your application contains a stored procedure for each country. Each stored procedure accepts an employee identification number through the @EmpID parameter.

You need to build a single process for each employee that will execute the appropriate stored procedure based on the country of residence.

Which approach should you use?

A. a SELECT statement that includes CASE

B. BULK INSERT

C. A user-defined function

D. Cursor

E. view

Correct Answer: D
