QUESTION 1

You have a SharePoint Server 2010 Service Pack 1 (SP1) server farm. The farm contains three servers named WFE1, WFE2, and APP1.

User requests are load balanced by using a hardware load balancer.

The farm contains a Business Data Connectivity Service service application. The service application is configured to run on APP1. You plan to add a new server named APP2 to the farm.

You need to ensure that all requests to the Business Data Connectivity Service service application are load balanced between APP1 and APP2.

What should you do?

- A. Create a new Business Data Connectivity Service service application.
- B. Install Network Load Balancing (NLB) on APP2.
- C. Publish the Business Data Connectivity Service service application.
- D. Start the Business Data Connectivity Service service application on APP2.
- E. Add APP1 and APP2 to the hardware load balancer.

Correct Answer: D

QUESTION 2

You are a SharePoint administrator for Adventure Works. You plan to deploy SharePoint Server 2010 to improve internal collaboration for the company. You also plan to use SharePoint Server 2010 as the platform for the company's public Web site. You need to recommend a strategy to prevent the deployment of SharePoint user solutions on the company's public Web site.

What should you recommend?

- A. Stop the Sandboxed Code Service.
- B. Disable the Data Retrieval Services.
- C. Disassociate the site from the Access Services service application.
- D. Require that all assemblies in solutions be signed.

Correct Answer: A

QUESTION 3

You are designing a SharePoint Server 2010 Service Pack 1 (SP1) server farm. Corporate security policy states that

only required ports must be open on servers.

You need to identify which communication ports must be open for the following operations:

Crawling SMB file shares

Accessing data from Microsoft SQL Server content databases
Communicating between front-end Web servers and application servers.

Which ports should you identify? To answer, drag the appropriate port to the correct operation in the answer area.

Select and Place:

The screenshot shows a drag-and-drop interface with two panels. The left panel, titled "Ports", contains five input boxes with the numbers 25, 389, 445, 1433, and 32843. The right panel, titled "Answer Area", contains three rows, each with a "Port" label and a text description: "Crawling SMB file shares", "Accessing data from Microsoft SQL Server content databases", and "Communicating between front-end Web servers and application servers". A large diagonal watermark "www.lead4pass.com" is overlaid on the image.

Correct Answer:

The screenshot shows the same drag-and-drop interface as above, but with the correct ports placed in the answer area. In the "Ports" panel, the boxes contain 25, 389, and an empty box. In the "Answer Area", the "Port" boxes contain 445, 1433, and 32843, corresponding to the three operations. A large diagonal watermark "www.lead4pass.com" is overlaid on the image.

QUESTION 4

You are the administrator for a SharePoint 2010 server farm named Farm1.

You create a second farm named Farm2 that is publicly available to host a public website.

You need to design a solution that will allow you to deploy web content from Farm1 to Farm2 on a scheduled basis.

What should you do? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Select and Place:

www.Lead4Pass.com

Correct Answer:

www.Lead4Pass.com

QUESTION 5

You are a SharePoint administrator for Fabrikam, Inc. The company has a main office and three branch offices. The main office is located in Paris. The branch offices are located in New York, Tokyo, and Toronto. The company has 2,000 employees.

You plan to deploy two SharePoint Server 2010 server farms. One farm will host a corporate intranet Web site and one farm will host a public Web site. The intranet will be used for collaboration and Web content management.

You need to plan a backup strategy for the server farm. Your solution must minimize costs. What should you include in the backup strategy?

- A. Microsoft System Center Data Protection Manager
- B. Windows Backup
- C. the backup-spfarm cmdlet and Task Scheduler
- D. backups from Central Administration

Correct Answer: C
