QUESTION 1

You have a deployment of System Center Configuration Manager (Current Branch).

You need to deploy an application to the users in the sales department. The deployment must meet the following requirements:

Install the application on client computers that have at least 5 GB of RAM.

Validate that the deployment of the application was successful.

Which settings should you configure for the deployment?

- A. Detection Method and Requirements
- B. Requirements and Dependencies
- C. Install Behavior and Dependencies
- D. Dependencies and User Experience
- E. User Experience and Detection Method

Correct Answer: A

QUESTION 2

You deploy System Center Configuration Manager (Current Branch).

You need to manage the malware settings for Configuration Manager clients.

What should you do first?

- A. Add an Endpoint Protection point.
- B. Disable Windows Defender.
- C. Create a configuration baseline.
- D. Create a compliance policy.

Correct Answer: A

References: <https://docs.microsoft.com/en-us/sccm/protect/deploy-use/endpoint-protection-configure>

QUESTION 3

You have a deployment of System Center Configuration Manager (Current Branch).

All the users at your company access their email by using Microsoft Exchange Online.

You need to prevent the users from connecting to their email from a jailbroken or rooted device.

Which two items should you deploy? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a conditional access policy
- B. a compliance policy
- C. custom Client Device Settings
- D. an email profile

Correct Answer: AB

QUESTION 4

You have a deployment of System Center Configuration Manager (Current Branch).

You discover that some users have an executable file named App1.exe configured to run at start up.

You need to identify which computers have App1.exe configured to run at start up.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Answer Area

- Create a compliance policy
- Deploy a package to a collection
- Create a configuration item and add an assembly
- Deploy a configuration baseline to a collection
- Create a package
- Create a configuration baseline
- Create a configuration item that has a registry value and a compliance rule

Correct Answer:

Actions

Answer Area

- Create a compliance policy
- Deploy a package to a collection
- Create a configuration item and add an assembly
-
- Create a package
-
-

- Create a configuration item that has a registry value and a compliance rule
- Create a configuration baseline
- Deploy a configuration baseline to a collection

QUESTION 5

You have a deployment of System Center Configuration Manager (Current Branch).

You configure hybrid mobile device management (MDM).

You run WINVER on client computer named Computer1 as shown in the following exhibit.

You need to create a compliance policy that has a condition specifying a minimum version of the operating system. The condition must use the same operating system version as Computer1. Which version should you specify in the condition?

- A. 10.0.16299.15
- B. 10.0.1709
- C. 10.1709
- D. 10.1709.16299.15

Correct Answer: A
