### QUESTION 1

You need to verify a domain that you recently added to your company's Office 365 service. Which two actions can you perform to achieve this goal? (Each correct answer presents a complete solution. Choose two.)

- A. Create a specified CNAME record with the domain registrar.
- B. Create a specified MX record with the domain registrar.
- C. Create a specified TXT record with the domain registrar.
- D. Create a specified SRV record with the domain registrar.

Correct Answer: BC

---

### QUESTION 2

Your company has an Office 365 subscription for midsize businesses and enterprises with separate cloud and on-premise identities. All client computers run Windows 7 Professional. You assign an Office 365 E3 license to each user and deploy the current version of Microsoft Office and the Microsoft Lync client to each client computer. Users can log in to Microsoft Outlook and Microsoft SharePoint Online by using their Office 365 credentials, but they cannot log in to the Lync client. You need to ensure that users can log in to all applications by using their Office 365 credentials. What should you do?

- A. Reformat each client computer and reinstall Windows 7 Professional.
- B. On each client computer, run the Office 365 Sign-in Assistant.
- C. On each client computer, uninstall Office.
- D. In the Lync Online Control Panel, enable the Log into Lync client option.
- E. On each client computer, uninstall and reinstall the Lync client.

Correct Answer: B

---

### QUESTION 3

Your company has an intranet site that is hosted on Microsoft SharePoint Online. Five users create subsites. None of the subsites inherit the permissions of the parent site. You need to ensure that a specific user can administer all the intranet subsites. You must accomplish this goal by using the minimum amount of effort. What should you do?

- A. Add the user to the Owners group of the root site.
- B. Add the user to the Office 365 Service Support Admin role group.
- C. Add the user to the Office 365 Help Desk Admin role group.
- D. Assign the user the Full Control permission to the root site.
- E. Add the user to the Site Collection Administrators group.

F. Add the user to the Office 365 User Account Admin role group.

Correct Answer: E

---

#### QUESTION 4

Your company has a public website that is hosted on Microsoft SharePoint Online. The Marketing department would like to create an FAQ on the public website. What should you do first?

- A. From the SharePoint Online Administration Center, create a private site collection.
- B. From the public website Site Settings page, create a page.
- C. From the SharePoint Online Administration Center, create a public website.
- D. From the public website Site Settings page, create a site content type.

Correct Answer: B

---

#### QUESTION 5

Your company has an Office 365 E3 Plan subscription with 60 licenses. You import and license all 60 users in your Office 365 directory. How much Microsoft SharePoint Online storage space does the subscription provide?

- A. 30 GB
- B. 40 GB
- C. 60 GB
- D. 70 GB

Correct Answer: B
