QUESTION 1

You want to convince an executive that a project's risks are understood and there are plans in place to address possible issues. What action should you do take before the meeting to help meet your goal?

- A. Identify how you can use this opportunity to reduce pressure on the project team and accept some new requirements.
- B. Gain the agreement of the executive's staff that you are keeping the smallest possible budget for your project by using 3rd party contractors wherever possible.
- C. Collect reports and success stories about other companies who have implemented technology solutions with a similar business goal.
- D. Prepare a risk probability/impact model with input from subject matter experts within the executive's staff.

Correct Answer: D

QUESTION 2

Which three dimensions can you use to categorize a business capability? (Choose three.)

- A. People
- B. Technology
- C. Procedures
- D. Processes
- E. Costs
- F. Level in architecture stack

Correct Answer: ABD

QUESTION 3

You need to decide on a maintenance approach for a private cloud storage and backup solution. Which would be a good alternative?

- A. Use the cloud provider, since they are the only ones with access to the data.
- B. Select the option which provides the highest capacity and most bandwidth.
- C. Assess options from several different providers, keeping near-term and future needs in mind.
- D. Look at providers with experience in working with public cloud software applications.

Correct Answer: C

QUESTION 4

An IT team is designing a Proof of Concept (PoC) for a mobile email account provisioning system. Which best describes this activity?

- A. A small and well defined exercise that directly measures and validates assumptions around a subset of capabilities.
- B. A partially configured implementation in a non-production environment that the team can use to learn the new system and provide requirements.
- C. A fully configured implementation in production that a small set of power-users use to validate how the system will be used in the field and to refine functionality.
- D. A process to solicit and screen beta testers for the first release of the product.

Correct Answer: A

QUESTION 5

Which two are examples of open-ended questions? (Choose two.)

- A. What switch models do you currently use in your network?
- B. What are the main reasons why customers prefer ordering services from you?
- C. What is the planned ROI for this new implementation?
- D. What do you think about the future of the Data Center market?
- E. What are your working hours?
- F. Does your existing infrastructure maintenance become more problematic each year?

Correct Answer: BD
