## QUESTION 1

Your parents want you to help them protect a tax return file that is on their computer. You use BitLocker to encrypt the hard drive that contains the file. You then make a backup copy of the file. What will occur if you attempt to copy the backup copy to a USB flash drive?

- A. The backup copy will remain encrypted
- B. BitLocker will encrypt the USB flash drive
- C. BitLocker will prevent you from moving the file
- D. The backup copy will be decrypted

Correct Answer: A

## QUESTION 2

Your university has an Active Directory Domain Services (AD DS) infrastructure. All domain controllers run Windows Server 2016.

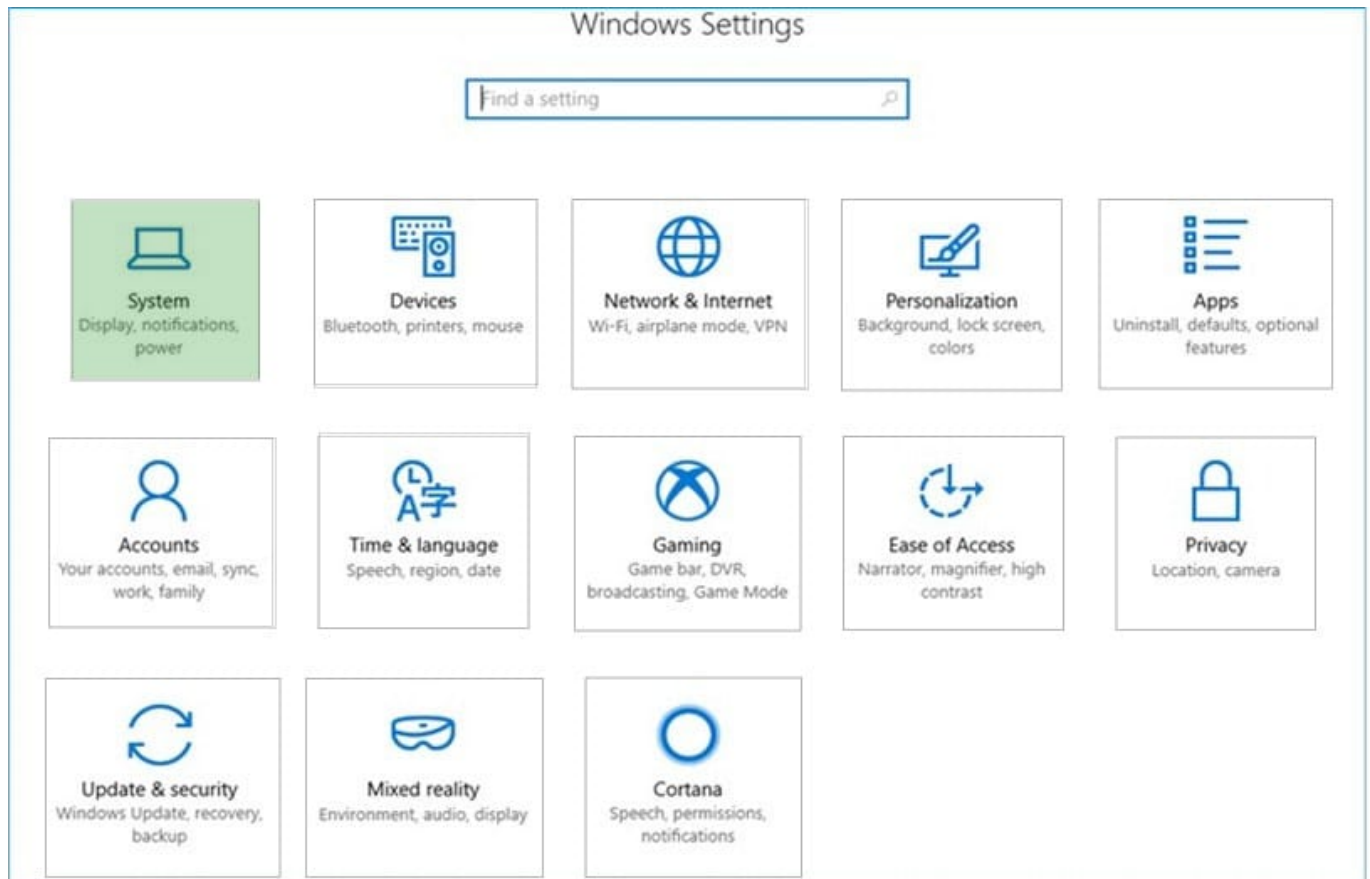

You are responsible for the computer lab and must join all computers to the domain. The lab computers run Microsoft Windows 10 Pro.

Which Windows Settings should you use? To answer, select the appropriate object in the answer area.

Hot Area:

Correct Answer:

<https://www.groovypost.com/howto/join-a-windows-10-client-domain/>

### QUESTION 3

You manage 200 desktop computers at your school's main computer lab. The computers run Microsoft Windows 10.

A critical update was released.

You need to determine if the update was installed on one of the computers in the lab. What should you do?

- A. View the Event Viewer Security log
- B. Check System Status in Control Panel
- C. View Windows update history
- D. Go to the System Action Center

Correct Answer: C

Follow these steps to see which Windows updates are installed on your computer.

1.

Open Windows Update by clicking the Start button Picture of the Start button. In the search box, type Update, and then, in the list of results, click Windows Update.

2.

In the left pane, click View update history.
