QUESTION 1

You are the help desk technician for a local real estate company. The company uses Microsoft Intune to manage its computers.

You are configuring alerts within Intune and want to ensure that the alerts are displayed as soon as they are triggered on any computer.

What should you do?

- A. Set the severity of each alert to Warning.
- B. Assign a value of 10 to the Display Threshold for each alert.
- C. Set the severity of each alert to Critical.
- D. Set the Display Threshold for each alert to Display All.

Correct Answer: A

QUESTION 2

This question requires that you evaluate the underlined text to determine if it is correct.

You are the Microsoft SharePoint administrator for your company. Several users report that File Explorer does not open when they use the Open with Explorer command.

To resolve this issue, you need to ensure that the Trusted sites option in File Explorer contains your SharePoint URL.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. Internet
- B. Managed web sites
- C. No change is needed.
- D. Restricted sites

Correct Answer: C

QUESTION 3

This question requires that you evaluate the underlined text to determine if it is correct.

Creating a "mail contact" by using the Microsoft Exchange Online GUI Console allows employees to reserve conference rooms for meetings.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. resource mailbox
- C. distribution group
- D. mail user

Correct Answer: B

Resource mailboxes can be included as resources in meeting requests, providing a simple and efficient way to manage the scheduling of resources for your organization. There are two types of resource mailboxes in Microsoft Exchange Server: room and equipment.

QUESTION 4

This question requires that you evaluate the underlined text to determine if it is correct.

A user management admin in Microsoft Office 365 Business Premium can reset passwords for users and service admins.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

- A. No change is needed
- B. billing
- C. global
- D. password

Correct Answer: D

User management admin can reset password, but can't reset passwords for billing, global, and service admins.

QUESTION 5

You are a network administrator for a company that uses Skype for Business.

You need to ensure that users can access conferencing from mobile phones even if the phones do not support the Skype for Business mobile client. What should you set up?

- A. multi-party audio and video

B. Web Conferencing tools

C. Skype consumer client

D. dial-in conferencing

Correct Answer: D
